Dear Mr. Debari-san:

On behalf of Microsoft Worldwide Public Sector Education, I am writing with a well-deserved and hearty congratulations to you and your team on the outstanding accomplishment of achieving delivery of more than 5 million Microsoft industry-recognized certification exams through Odyssey Communications, Inc., (OCI), across your organization's history.

The milestone you have reached this month represents a truly special occasion and deserves great praise for OCI reaching this lofty mark. Through more than 20 years of stellar partnership with Pearson VUE Certiport and Microsoft, the OCI team has persevered in serving millions of Japanese educators, students, and citizens to reach their certification goals and helping to strengthen the quality and digital skills readiness of the Japan workforce.

As a company, we are proud at Microsoft and in Worldwide Education to have a significant affiliation with OCI as an esteemed partner of Pearson VUE Certiport in delivery of official Microsoft industry certifications in Japan over many years, including the delivery of the Microsoft Office Specialist (MOS) and the technical Microsoft Fundamentals exams across key commercial solution areas (CSAs): Biz Apps, Data & AI, Infrastructure, Modern Work, and SCI.

We applaud your accomplishments and look forward to continuing strong collaboration with you to serve learners throughout Japan as we reach ahead together for the next 5 million exam deliveries.
